Jo.

I may be a little early with birthday greetings but we are leaving tomorrow; so it will be almost impossible to send them later on.

I hope you have the Happiest of Birthdays and that the present I chose is to your liking. I racked my brain for over a week for some suitable present to send you. I arrived at one conclusion, that as a "present picker" I make a better actor.

We won't be long

so very long. Until we return  
I'm saying

Happy Birthday

Pete.

A Birthday Message  
for My SISTER

We're not the sentimental type,  
But you know anyway

*Just how I feel  
about you  
So this only comes  
to say,*

*"You're wished a  
Happy Birthday  
That's the best you've  
had, by far"*

(And though it doesn't  
say you're swell,  
You know I think  
you are!)

Rita
