

FORT BRAGG, N. C.

July 14, 1942

Hello Junior,

So you are still a tenderfoot? When are you going to kill that rabbit and get out of the tenderfoot class?

Anybody can kill gophers. Yes, even I.

As you have probably guessed, I'm in this darned hospital again. Only not for long I'm going out in the morning, back to the company. And we will probably leave on maneuvers shortly thereafter, for everyone else is out in the field.

You might keep a sharp lookout in the "Look" magazine, they are going to publish a story about the 60th Inf. in it. The photographer was there last week taking pictures. It might take several weeks for it to be published.

Be careful when you go swimming. Do you have fun when you go?

I wish you could see the large airplanes flying by all day long. It would really be a treat for you.

That is all
as ever
P. to.
