

FORT BRAGG, N. C.

Oct 7, 1942

Hello Junior,

Thank you for your letter.

I enjoy hearing from you.

So you have been playing football. I'm glad to hear that. However you don't throw a spinner in football. It is a spiral you throw. (Ask your teacher or folks to tell you how to pronounce ^{spiral} ~~it~~). A spinner in football is a reverse play behind the line of scrimmage.

By the way when you can kick a football so it will spiral then you can start thinking you are good. Once in awhile I kick one that will spiral, but I don't consider myself as being good. When you kick the football extend your foot and tols as much as possible, and kick the football with the outside of the top of your foot. Or if you kick with your right foot, the ball should contact the right

side of your foot. If you kick with your left foot then the ball should contact the left side of your foot. You should kick with ^{the} ~~with~~ top of your whole foot, and not your toes.

So your collecting scrap. Good for you. Keep up the good work. That way you earn yourself ~~some spending money~~ at the same time do a good deed for everyone concerned. Except of course our enemies.

I think that is all I have to say. Write to me often

As ever,

Pito

For our activities read the Falk's letter.
