Hello Folks,

We have had our
baptism of fire. As far
as I know most of the
boys did all right.

I don't know the
extent of the casualties,
but the fighting here
seems to be all over
with.

We all had close
calls but there were very
few of our close buddies
that had the ill luck
of meeting their end.

We our still in
the field haven't

washed in a week.

This paper is borrowed so I won't go into detail as to anything else.

I'm all right a little dirty but still in one piece. From here on Heaven only knows what is in store for us.

Soon as we get the rest of our equipment and get settled a little more I'll write a big long letter. Until then don't worry about me.

Regards to all
Pto.
